

# Rain Clouds Science Experiment With Shaving Cream

This science activity is a great way to use shaving cream/foam if you have it on hand. Otherwise you can add a few items to your shopping basket and you are ready for playing.

## What you'll need

- Pipettes
- Food Coloring
- Water
- Mason jars
- Shaving cream

## Steps

1. Fill each Mason jar  $\frac{3}{4}$  full with water
2. Squirt shaving cream onto the water
3. Mix a few drops of blue food coloring with  $\frac{1}{4}$  cups of water
4. Add pipettes and let your kids squeeze blue water into the shaving cream
