

Washing Dishes

Sensory Play

This is a very useful activity to clean up any dishes left over from playing outside. Or your kids can wash some of their washable toys. Either way it's a great activity to engage kids for a while.

It just takes a sensory bin, water, scrubbers, soap and some toys to entertain your kids for a long time.

Kids get to practice life skills in this sensory bin and copy you washing dishes.

Kids will learn about:

Sensory
Fine Motor Skills

What you'll need

- Dish Soap
- Dish Towel
- Toys
- Water
- Bin
- Sponges

Steps

1. Gather all the supplies
2. Fill the sensory bin or tub with soapy water and add the toys and cleaning tools
3. You can fill another bin with clean water
4. Supply the bin to your child and show them how to play
