

Felt And Pipecleaners Tree Activity

If you keep felt and pipecleaners in your home, you can easily do this activity with your kids.

You can cut either flowers or leaves out of felt, or do both.

What you'll need

- Felt
- Tape
- Pipe Cleaners

Steps

1. Cut out either leaves or flowers, or both, from felt.
2. Make a few trees from pipe cleaners.

Twist several pipe cleaners around one main trunk to create a tree with branches.

3. Tape the pipe cleaner tree to a surface, ready to play
4. Invite your kids to play and show them how.

Ask them to hang the felt leaves and flowers on the tree. Let them play or give them quests (like hanging a certain amount of items).

Kids will learn about:

Sensory
Hand-eye Coordination
Colour Recognition
Fine Motor Skills

Categories:

Quiet Time
Indoor
