

# Shape Cardboard Roll Painting

I always have cardboard rolls and paint in the home and that's all this activity needs!

It's also a very simple educational activity, because it teaches shapes and colours.

## What you'll need

- Paint
- Cardboard Rolls

## Steps

1. Make the heart shape with the cardboard roll.

In order to make the heart stamp flatten the toilet roll tube. Tuck one of the folded edges into the centre of the tube to create the curved part of the heart. You can use a bit of tape to hold it in place.

2. Make the square shape from the cardboard roll.

Flatten the toilet roll tube, open it up and then flatten it the other way.

3. Make a triangle out of the cardboard roll.

Create three folds around the tube to form a triangle shape.
