

# Easter Egg Sensory Bin Rescue

This activity is an adventure for your kids: to discover what is hidden in the Easter eggs that they've rescued. Is it a letter? A number? A fun toy?

Tape a few plastic Easter eggs in a sensory bin in a few different ways and let your kids rescue it with a ladle. For Easter you can add a few chocolate eggs to the bin.

I like this activity because you can use any Easter eggs in this activity but plastic eggs are best because you can add interesting items to the plastic eggs such as letters numbers and other small items. It's great hand eye coordination practice and are sure to keep your kids busy for a while.

## Kids will learn about:

Sensory  
Hand-eye Coordination  
Colour Recognition  
Mathematics  
Fine Motor Skills  
Literacy

## What you'll need

- Ladle
- Plastic Easter Eggs

## Steps

1. Gather all the supplies
2. Add various small items such as toys or letters to the inside of the Easter eggs
3. Place the Easter eggs in the sensory bin or container
4. Tape various lines over your sensory bin or other container
5. Show your kids how to play by scooping out the Easter eggs
