

Activity For Kids:

Recycled Building Activity For Kids

I love kids activities where you don't have to buy anything to play.

In this activity you let your kids build with recycled materials, helping you to reuse it before recycling.

It is a great activity to hone their creativity skills, and help them focus on one thing.

What you'll need

- Recycle items

Steps

1. Save some recycle items or go through your recycling for some items
2. Supply the items to your kids and invite them to play
3. See who can build the most elaborate building from the recycle material

Kids will learn about:

Creativity
