

# Candy Rainbow Science Activity

The finished product from this activity looks so mesmerizing and colorful, and it's really simple to do.

All you need are some colorful candy and water to create a beautiful rainbow.

## What you'll need

- Candy
- Water

## Steps

1. Let your kids help you pack the colorful candy in a circle shape in the plate
2. Gently add some water to the middle of the plate
3. Watch and wait until a rainbow forms in the middle of the plate
