

Rescue The Animals Cutting Activity

Activities that you can do with items already in your home is a big win for me.

In this activity, kids not only get to practice cutting skills, but they also get to "rescue" animals stuck inside a muffin tin closed with tape.

Plus all you need are animal figurines, tape and a muffin tin to play!

What you'll need

- Figurines
- muffin tin
- Tape

Steps

1. Place animal or other figurines: one in each muffin tin
2. Stick tape over the muffin tin holes, one tape in each direction, forming a "plus" sign.

Or try making other shapes with the tape, like vertical or horizontal lines.

3. Supply child scissors and invite your children to rescue the animal or other figurines.

Celebrate once they've rescued an animal.

Kids will learn about:

Hand-eye Coordination
Fine Motor Skills
Cognition

Categories:

Quiet Time
Indoor
