

Threading Station

I like this activity because kids of different ages can play with it in their own way and you don't need too many supplies or a big setup. All you need are pipe cleaners and straws and a storage container. If you keep it in a sensory bin it will contain some of the mess.

What you'll need

- Container
- Straws
- Pipe Cleaners

Steps

1. Gather all the supplies
2. Cut the straws into smaller bits and place it in a container with the pipe cleaners
3. Show your kids how to play

Kids will learn about:

Sensory
Hand-eye Coordination
Colour Recognition
Creativity
Fine Motor Skills

Categories:

Quiet Time
Sensory
Indoor
